## 22<sup>nd</sup> Annual Mississippi Greenhouse Tomato Short Course

If you are a grower of greenhouse tomatoes, or if you have interest in growing this crop, mark your calendar now for the 22<sup>nd</sup> Annual Greenhouse Tomato Short Course. Participating in this program will be the best way to learn all about successfully producing greenhouse tomatoes.

The Greenhouse Tomato Short Course will be held at the Eagle Ridge Conference Center, 1500 Raymond Lake Road, Raymond, MS. Expert speakers will present seminars on **March 6 and 7** (Tuesday and Wednesday), all top notch in their respective fields.

Special topics this year will be components of the greenhouse system, greenhouse design and engineering, alternative heating options, greenhouse irrigation, growers' experience and perspectives, marketing, budget for greenhouse growers, updates on the latest research, plant nutrition, alternative crops, and of course the pest management workshop, which will include physiological disorders, diagnosing plant problems, plant disease identification and control, biological control, and conventional and organic pest management.

Exhibitors from across the U.S. and Canada will be available to show you their products and discuss how to use them. All aspects of production will be thoroughly covered. Plan on attending this Short Course to learn all you need to know about this crop and run a successful greenhouse business. In recent years, the Short Course attracted participants from more than 25 states and several Caribbean and Latin American countries.

The Greenhouse Tomato Short Course continues to be the best deal around! Compare this program to others that cost over \$500 to register. **Advance registration is \$125** (use registration form in mailed packet or online with a credit card), **or**, if you prefer, you can pay **\$150 at the door**, per person for the entire Short Course.

I would like to encourage advance registration so that the number of meals can be estimated accurately. Advance registration must be received by **February 24**.

The registration fee includes coffee, refreshments, three meals, all Extension publications, and some very special promotional items. All those who preregister will also receive the latest edition of the Greenhouse Tomato Short Course cap as well as the one-of-a-kind tomato coffee mug.

See the web site, for complete details on the Greenhouse Tomato Short Course – [www.greenhousetomatosc.com](http://www.greenhousetomatosc.com). For further information, send email to Dr. Rick Snyder at [Rick.Snyder@msstate.edu](mailto:Rick.Snyder@msstate.edu) or call (601) 892-3731.
