

Now available - the latest information on growing greenhouse tomatoes

Dear Greenhouse Tomato Grower:

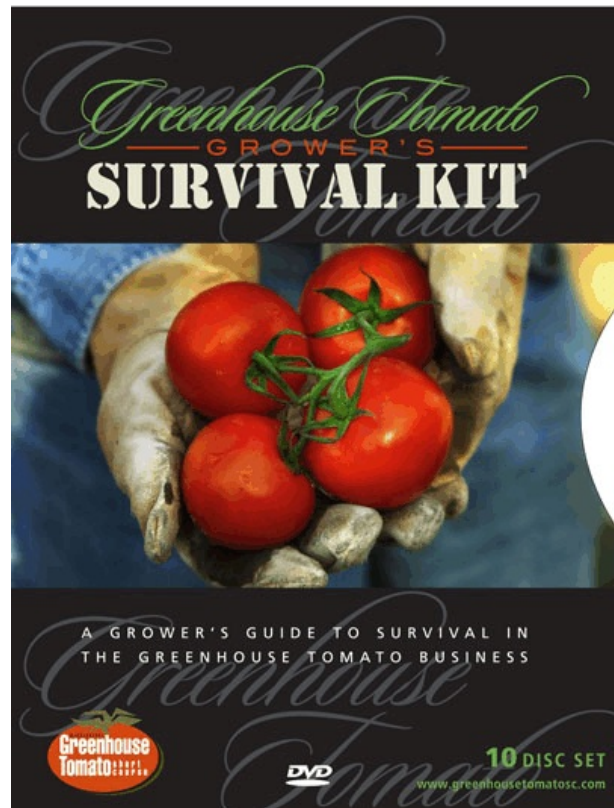

A complete **10-DVD Greenhouse Tomato Grower's Survival Kit** is now available to help greenhouse vegetable growers succeed in the business of raising high quality tomatoes and other greenhouse vegetables.

The DVD's include all of the speakers and presentations from a recent three-day Greenhouse Tomato Short Course.

You can order the DVD set by sending in the Order Form with a check for \$60, which includes shipping within the U.S. and Canada.

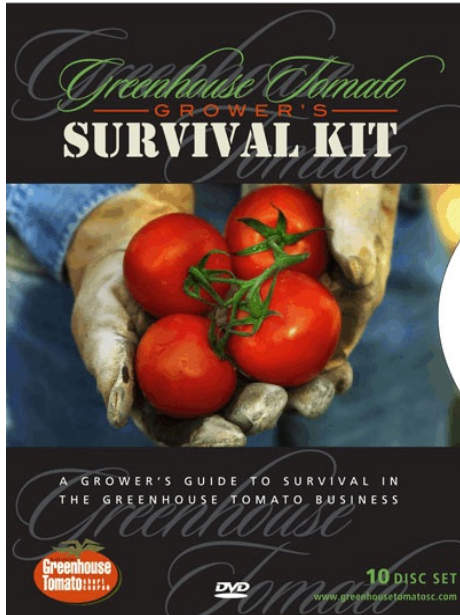

The Greenhouse Tomato Short Course is a national conference with growers and exhibitors participating from over 25 states, Canada, and other countries. For more information, go to <http://greenhousetomatosc.com>. This is your chance to see what you missed and to have reference materials at your fingertips to help you succeed.

To order, use the Order Form, and send it with a check or money order to Dr. Richard G. Snyder, Professor & Vegetable Specialist, Mississippi State University, P.O. Box 231, Crystal Springs, MS 39059.
