Annual Mississippi Partnership for Comprehensive Cancer Control Symposium

May 24, 2006
"Imagine Mississippi Cancer-free"

Attend this conference if you:

- Are concerned about the cancer burden in Mississippi
- Want to take action and join the effort to conquer cancer
- Need to know how to prevent and detect cancer
- Suffer from the disease and are under treatment
- Are a cancer survivor
- Provide medical treatment and care for cancer patients

Featured Speakers:

- National & local physicians
- Researchers
- Cancer survivors
- Community leaders

The CCC Symposium will provide key findings and advances in the state of knowledge to the following: cancer prevention, early detection, diagnosis and treatment, survivorship and quality of life, and cancer surveillance. Other cancer-related information will also be presented on topics such as: cancer information resources, value of cancer clinical trials for cancer patients and researchers, medical response to the cancer community during times of natural disasters, and the emotional and physical impact of cancer.

Continuing education units will be applied for the following groups attending the Annual Mississippi Partnership for Comprehensive Cancer Control Symposium:

- Physicians
- Dentists
- Nurses
- Dental Hygienists

Annual Chronic Disease & Injury Prevention Conference

May 25-26, 2006

The purpose of the conference is to empower attendees with knowledge, resources, and tools to:

- Engage people where they live, work & play to embrace healthy lifestyles for themselves & those they care about
- Collaborate with schools, workplaces, faith-based organizations and other community partners
- Empower communities to make better health-related decisions and choices
- Strengthen the behavioral science to develop effective health maintenance and interventions for individuals and communities

Conference Topics:

Community-Based Diabetes Management and Prevention Programs, Lower Extremity Amputation Prevention, Cardiovascular Health, Smoking Cessation, Know Your Numbers, Asthma Management, Fire Prevention, Child Passenger Safety, Physical Activity, Nutrition and Obesity, Oral Infections and Systemic Disease, Infant Mortality, Cancer Control, Building Strategic Partnerships, Identifying Community Assets, and Program Evaluation

At the conclusion of the conference, participants will be able to:

1. List examples of successful partnerships, model programs, and lessons learned.
2. Discuss preventive health programs that foster partnering and collaboration.
3. Discuss the burden and impact of chronic disease within Mississippi.
4. Describe innovative disease management interventions utilizing community needs and resources.
5. Describe the Mississippi Department of Health's grant preparation and submission process.
