Summary		47	548	1.54	695	1.94	3.22	948	2.58

The South Mississippi Gain-On-Forage Bull Test focus is providing beef seedstock producers an opportunity to evaluate the performance of their bulls grazing pasture forages in a controlled testing program. However; in upholding our longstanding objective of providing opportunities for commercial cattle producers to purchase forage produced, performance proven, rugged, high quality, genetically superior herd sires; the Bull Test Committee is poised to offer eligible bulls for sale via **PRIVATE TREATY SALE**.

South Mississippi Gain-On-Forage Bull Test Treaty Sale Arrangements

- A. It is neither the responsibility nor the right of the South Mississippi Gain-On-Forage Bull Test to negotiate private treaty sale agreements. It is the obligation of the seller and buyer to negotiate terms and conditions of private treaty sale transactions. The South Mississippi Gain-On-Forage Bull Test makes no warranty or guarantee of any kind or nature on bulls enrolled in the Test that are purchased via private treaty transactions.**
- B. Bulls sold via private treaty will meet the following eligibility requirements:**
 - 1) Registered bulls must be registered through the appropriate breed association; bulls of composite breeding must be approved for sale by the South Mississippi Gain-On-Forage Bull Test Committee.**
 - 2) Minimum adjusted 205-day weight shall be 500 pounds.**
 - 3) Passage of Breeding Soundness Evaluation(BSE). Bulls selling via private treaty must pass a breeding soundness evaluation administered by a licensed veterinarian indicating fertility. Fees for the BSE are borne by the breeder. Each bull is guaranteed by the consignor to be fertile for a period of 60 days from date of sale, provided the bull is properly utilized, receives adequate care, and remains free of injury. The South Mississippi Gain-On-Forage Bull Test makes no warranty or guarantee of any private treaty sale arrangements.**

**Persons interested in purchasing bulls
should contact Test Manager
Frank Holmes at:**

601-876-5204

The following bulls have met sale requirements
established by the Bull Test Committee
and are being offered for
PRIVATE TREATY SALE by the breeder

2010 – 2011 South Mississippi Gain-On-Forage Bull Test
(In Cooperation With the Mississippi State University Extension Service)
HHH Farms Bull Test Facility • Tylertown, Mississippi

RECOMMENDATIONS FOR BULLS PURCHASED VIA PRIVATE TREATY SALE ARRANGEMENTS:

By: Larry DeMuth, Retired Livestock Specialist, Mississippi State University Extension Service •

1. Remember, these are young bulls that are still growing and developing.
2. These bulls have been developing on well-fertilized forage grasses and small grain grazing. It takes **10 to 14 days** for bulls to adjust to different diets. If you do not have adequate pasture grass at the time you purchase a bull(s) eligible for sale after completion of the South Mississippi Gain-On-Forage Bull Test via a private treaty sale arrangement(s) with the breeder, you need to provide plenty of good quality hay and 5 to 8 pounds of grain per head per day. This will keep the bull growing and developing to your satisfaction, until good summer pasture grass is available.
3. Young bulls completing the South Mississippi Gain-On-Forage Bull Test Program should be able to breed 15 to 20 cows this spring. **DO NOT EXPECT HIM TO SUCCESSFULLY BREED 25 TO 30 COWS** – he is not old enough; this requires a solid two-year-old bull.
4. **DO NOT NEGLECT THE BULL ALL SUMMER.** Remove the bull(s) from cows after 60 to 90 days (before July 15th), deworm and put him on good grass pasture. Preferably feed him 10 to 15 pounds of grain per day. This will allow the bull to continue maturing and developing to your satisfaction.

For More Information concerning South MS Gain on Forage Bull Test: Contact: C Richard Hay Amite County Extension Director •
P.O. Box 373 • Liberty, MS 39645-0373 • Telephone: 601-657-8937 • e-mail: crhay@ext.msstate.edu
