Mississippi State University Extension Service

Farm Pond and Lake Harvest Record

Instructions: Accurate and complete data are important to fisheries management. All fishermen should complete a record after each trip. For convenience, fish can be grouped in size-length according to the following categories:

Bass categories: 8 to 12 inches, 12 to 15 inches, > 15 inches

Bluegill categories: 3 to 6 inches, > 6 inches

Under each column, in each size group, enter the number of fish harvested (H) **or** released back into the lake (R).

		BASS			BLUEGILL		CATFISH	OTHER
Date	Fisherman	8 - 12 inches	12 - 15 inches	> 15 inches	3 - 6 inches	> 6 inches		
		H / R	H / R	H / R	H / R	H / R	H / R	H / R
