

# GLOSSARY OF HERBICIDES

Efforts were made to determine the chemical companies, trade names, and formulations of herbicides suggested in these guidelines that are labeled with the Mississippi Bureau of Plant Industry. Omission of any products containing the active ingredients listed in this book was not intended.

## ***Use Classification***

Certain chemicals have been classified by the U.S. Environmental Protection Agency or the Mississippi Department of Agriculture and Commerce, Bureau of Plant Industry as "Restricted Use" to ensure the safety of persons using them and to ensure the safety of the environment. Only certain formulations may be Restricted Use. Any person who is the end user of these products must be a certified applicator or working under the direct supervision of a certified applicator. To become certified, persons should contact their county Extension office or the Bureau of Plant Industry. All dealers who sell any products that are classified as EPA Restricted Use or State Restricted Use must obtain a dealer license from the Bureau of Plant Industry.

Use classifications are shown in the Glossary for each group of products. Following are the classification categories:

**R—Products classified as Restricted Use by EPA.** They will contain on the front panel of their labels the wording "Restricted Use Pesticide for retail sale to and use only by certified applicators or persons under their direct supervision and only for those uses covered by the certified applicator's certification," or similar wording.

**G—Products for general use (not restricted by EPA).** They can be bought and used by the general public without certification.
