Public Water System Assistance Program

Water is a priceless commodity that is critical to both human and community economic development. The governing bodies of the more than 1,300 small and rural water systems in Mississippi continue to face many pressing challenges in managing these systems due to increased legal mandates and poor management practices. As a result, the Mississippi Legislature enacted Senate Bill 2597, in 1997.

The bill requires members of any governing board, on any community water system, elected, or re-elected after June 30, 1998, to attend a minimum of 8 hours management training within two years following his or her election. Systems operated by municipalities with a population greater than 10,000 are excluded.

The Mississippi State University Extension Service Community Resource Development responded to the legislation by developing a partnership with the Mississippi State Department of Health to provide overall coordination of the Public Water System Board Management Training Program.

To comply with the Federal Safe Drinking Water Act (SDWA), which requires each state to implement a Capacity Development Program to improve the technical, managerial, and financial capacity of the state's public water systems, the Mississippi Legislature revised the Mississippi Safe Drinking Water Law (MS SDWL) in 1997. In response to this legislature, the Mississippi State University Extension Service Community Resource Development obtained funds from the Mississippi Department of Health in order to implement and coordinate a Peer Review Program for public water systems in Mississippi.

Forms Services

Record: 1/1

After the database is opened, you will be asked to select either *View Operator Info by Certification #* or *Exit*. If you wish to view your CEU progress, select *View Operator Info by Certification #*. Otherwise, select *Exit* to close the database.

Following is the Operator Info screen. To view your information, including CEU hours, enter your certification number in the *Certification #* field in the upper right hand corner of the screen and then press either the **Tab** or **Enter** key.

Operator Info
 Enter Certification # then press <TAB> or <Enter> to query info >>> Certification #

Total Reg and Non-Reg CEUs

Once certification # has been entered, that operator's information is viewed. For this example, Mr. Steve Luckett has entered his certification number and can view his current CEU hours for the recertification period of interest. To view the hours for a particular recertification period, click the >> button to the right of the *Certification Terms*.

To print a transcript of your hours, simply click the *Print* button in the upper right hand area of the window. This will create a pdf document that you can either view or print. NOTE: In order to utilize this feature, you must have previously installed the Adobe Acrobat Reader on your computer. To obtain this free software, please visit <http://www.adobe.com>.
