

MISSISSIPPI WELL OWNER NETWORK

MISSISSIPPI WELL OWNER NETWORK PROGRAM

The Mississippi Well Owner Network program is a free, educational training opportunity for Mississippi residents who depend on household wells for their water needs. The program will benefit private well owners who want to become familiar with groundwater resources, septic system maintenance, well maintenance, water quality, and water treatment. Private well owners are independently responsible for monitoring the quality of their wells. Essentially, they are the operators of their own water systems and are responsible for ensuring that their water is safe.

BRING YOUR WELL WATER SAMPLES!

Well owners may bring water samples to be screened for total coliform and E. coli bacteria for \$25. Pick up approved sample containers with instructions at the Marshall County MSU Extension office October 15-19 and October 22.

Each participant will receive free MSU Extension publications related to private wells and septic systems.

MISSISSIPPI STATE
UNIVERSITY™
